

Jerome Lamb, M.D.
Plastic & Reconstructive Surgery

Elective Cosmetic or Self-Pay Policy

We require a deposit of \$750.00 to schedule elective surgery. This amount is to be applied to Dr. Lamb's professional fee. Also any consult fee charge is credited back to your total surgery cost.

Your deposit is "non-refundable". Should you cancel or postpone your surgery for any reason, the deposit is retained and credited to you for future Cosmetic services. If you never reschedule, your deposit is forfeited. The balance due for all providers of service will be collected prior to surgery. This is usually at your pre-op appointment, two weeks before your surgery date, at which time you will receive a breakdown of fees. You need to make two separate payments; (each provider of service, i.e. Dr. Lamb, and M.W.P.S.).

Should your surgery be canceled right at the time of surgery due to lack of compliancy of the patient, a surcharge will be added prior to the next surgery date schedule.

The accepted forms of payment for your surgery may be made through: Cash, cashiers check, money order, all major credit cards, and through our Cosmetic Fee Plan.

The published fees from Dr. Lamb's Surgery Fee List includes the Professional Fee, the Facility Fee, the Anesthesia Fee, "routine" pre-op lab work, one garment, and post-op care. You and/or the procedure may require additional tests or components. Females of childbearing age will need to provide a negative pregnancy test the day of surgery. You may opt to sign a waiver of liability regarding pregnancy. If you are in a high risk group for HIV and/or Hepatitis C and have never been tested, we will require these tests performed prior to your surgery. We have the right to cancel surgery for any abnormal lab results. Another out of pocket expense would be any post-op prescriptions. The prescription plan with your health insurance may cover this expense.

We perform surgeries on Tuesdays and Thursdays. Your anesthesia may be administered by a board certified anesthesiologist or certified nurse anesthetist.

If your Procedure is scheduled at St. Mary's Hospital of Blue Springs, the anesthesia group will be Anesthesia Services of Blue Springs (ASBS). Anesthesia reserves the right to review their fee schedule to us on a monthly basis. Therefore, their fees would need to be re-confirmed if our quote and your procedure are greater than 30 days apart.
